

NEBOSH NGC

NEBOSH NATIONAL General Certificate in Occupational Safety and Health, it is a globally recognized Health and Safety qualification

The NEBOSH NGC is designed to help businesses to manage health and safety risk more effectively. Iken Dynamics are a registered NEBOSH center, through our team of experienced safety practitioners we are able to offer both Open programmes and Bespoke in-house courses, where we can incorporate particular needs of your business, such as specific systems of work or hazards. Iken specialise in the Chemical and Biotechnology industries.

What kind of people take NEBOSH NGC

Managers, Supervisors, Safety Representatives, and staff from all types of organizations who need a broad understanding of health and safety issues. It provides a valuable overview and is a sound basis for further professional study.

What are the benefits to the organization?

Many larger Organisations choose the certificate as a key part of their Supervisor's or Managers development programme. By ensuring that line managers have a sound understanding of the principles of risk management they build an effective safety culture in the Company. We recommend coupling this approach with IOSH working safely delivered to all employees, as the first step to building a positive safety culture within your organization.

Smaller organizations, operating in lower risk environments, often choose the NEBOSH certificate as the appropriate qualification for the manager taking the lead on health and safety issues.

What does the course cover?

It covers the main legal requirements for safety in the UK, a range of workplace hazards and methods of control.
